Portfolio

EXPERIENCE

SPA development with **React**, Javascript/Typescript, Redux. Familiar with client-server architecture: Rest API (**Axios**, Postman). CSS/**SCSS** based designs, **Material UI**, React-hook-form, Formik. Developing in accordance with TDD principles: **Unit Tests**, UI functionality control with Storybook and snapshot testing. Refactoring according to **KISS** and Single Responsibility principles. Working with **Git/Github** as version control systems and Heroku.

My Projects

- ✦ **To-do List** task management react application: actions with task lists and tasks, dark/light mode. Made on typescript with react hooks, HOCs, Rest API request/response flow (axios), routing. MaterialUI and formik are used. Tested with unit tests and storybook. Demo: <https://katerinamiku.github.io/todolist>
- ✦ **Social Network App** on react/typescript. Social network functionality such as login/logout, pagination, profile page, friends, messages using react hooks, HOCs, redux, Rest API (axios), formik and etc. Demo: <https://katerinamiku.github.io/samuraiLessons>
- ✦ **Click counter** on typescript as a study project. React hooks used, redux and local storage are applied. Demo: <https://katerinamiku.github.io/ClickCounter>
